TALKING POINTS

SUBJECT: 16 June 1982 HPSCI Hearing Re Coordination of
Intelligence Operations By the DoD and CIA

Background: In its 13 May 1982 letter to you, the HPSCI notes that "[t]he Committee is not fully satisfied that proper coordination is being affected or that this Committee is being fully and currently informed of intelligence activities to include significant anticipated intelligence activities."

-- The letter notes that the Committee is not satisfied and, Mr. Chairman, nor am I satisfied that proper coordination is being affected. However, as I noted in my statement positive steps to improve that process have been initiated.

-- With regard to the [REDACTED] I must state outright that I did not know about that operation in advance;

25X1

-- I do, however, Mr. Chairman, wish to assure you that now that I do know about that operation, I have taken steps to insure that any such future activities will be coordinated. In that regard, I have already spoken to Secretary Weinberger and the process is underway.
